

So you think you're done...

Save Your Finished Illustration

1. Create a new folder in the correct **_finished** folder on the Faculty Drive with your name on it.
2. Save your file as a PDF:
File- Save As-Photoshop PDF
3. Reduce the resolution to 72 dpi:

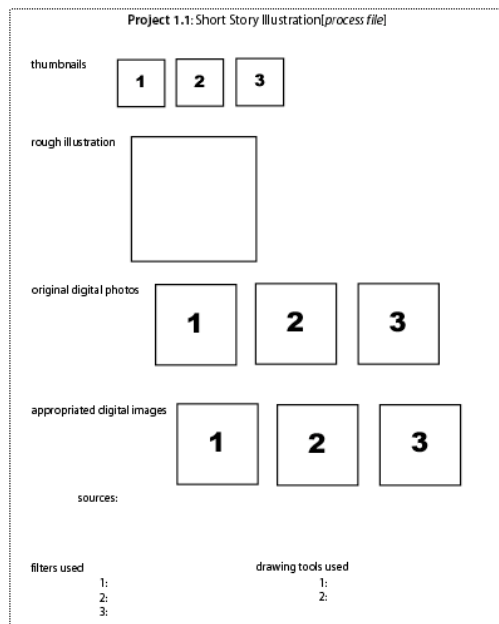

4. Flatten the layers:

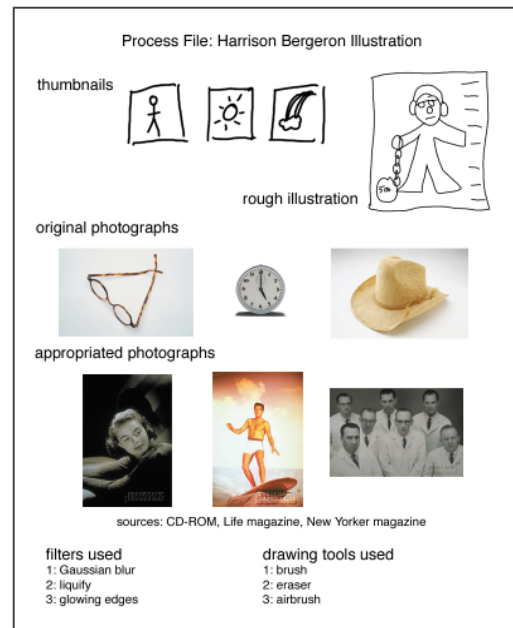

5. And save (again) as a JPG:
File-Save As- JPEG

Create Your Process File

1. Start a new file, 8x10 inches and 100 dpi.
2. Select each of the required parts and paste them into this new file.
3. Resize the files so they all fit.
4. Using the type tool, mark what they are.
5. Save as a Photoshop PDF.

Process File Guidelines

Process File

Your finished folder should contain 3 files:
