

Midterm Presentation [10 points]

In your assigned group, research the place of photography in your field of study.

Find examples of the type of photography used, specific relevant photographers, specialized equipment, etc.

Prepare a 15-minute PowerPoint (or similar) lecture on this information. This should be a continuous sequence of slides to support your presentation.

Also include (at least) 8-10 visual examples of this style of photography, and create an **original** example that demonstrates your knowledge of this style.

Include a bibliography of your sources at the end of the presentation.

Practice your presentation ahead of time.

Reading directly from something you downloaded is plagiarism
