

In Class Project: Superhero Collage

Specifications: Interview your partner about their “superpower”. Using the version of the golden ratio on your handout as the background, create a collage that describes this superpower. Include a photo of your partner, all photos used must be original. Start by brainstorming ideas and create a sketch of the potential layout. Shoot photos to create the needed elements and print out. Cut and paste to assemble the finished design. No editing or resizing in Photoshop, print directly from the shot files. Low resolution, laser prints.

Outcome: One 8.5 x 11 inch composition, black and white.

Equipment: Camera, scissors, glue, printer.

Due: Half an hour before the end of class
